

Unearth Skills for YOUR future of work!

JOB DESCRIPTION

High School Coop Student

Status: Accepting applications

As a Coop Student, you will have the opportunity to co-design a placement that helps you develop skills you will need for YOUR future of work.

You will work with the Unearth Education Éveillée (UEÉ) Team to review, test, design and enhance [virtual experiential learning programs](#) for high school students while completing a sector-specific problem-based learning project.

Here is your chance to develop the following skills that employers are looking for!

- Project management
- Leadership
- Communication
- Collaboration
- Creative problem-solving
- Strategic thinking
- Digital literacy
- Entrepreneurship
- Customer service
- Divergent thinking

Coop Students will work on independent projects and tasks as well as team initiatives. You will have the opportunity to work in the following departments:

- Program development
- Marketing
- Sales
- Customer service
- Technology support
- Product development
- Market research
- Evaluation

Requirements for the role:

- Intermediate computer skills with a willingness to learn new technology.
- Ability to self-direct and manage individual projects.
- Time management and organization skills.
- Good judgment and problem-solving abilities.
- Strong interpersonal and communication skills
- Ability to adjust and learn new skills.
- Open-minded and eager to explore new opportunities and challenges.
- Access to internet and a computer with camera and microphone.

Upon successful completion you will receive certificates of achievement towards:

- Design Thinking (Innovation, Creativity and Entrepreneurship)
- Project Management
- Leadership
- Portfolio Development
