

LEARNING MODELS

Unearth Education Éveillée (UEE) understands that each school and school boards have unique needs and in light of COVID-19 given the varying teaching models and schedules. This is why, we've created various learning and delivery models that provide flexibility and adaptability to allow our online certification to fit into your schedule.

Unearth Education Online Certifications are created by a content development team of educators that include Ontario certified teachers in collaboration with sector specific industry professionals. Each certification consists of learning modules that include dynamic videos created by the development team, with short content pieces for students to complete to build learning and submit assignments. Our content developers use their real-world experience to create certifications that provide students with opportunities to build the skills they will need for their future of work.

How do students access content?	Learning modules and content are available in the UEE virtual learning platform. One login is created with your email address. All students use the same login to view certification content.	Learning modules and content are available on our virtual learning platform. You and every student receive their own login.	Learning modules and content are available on our virtual learning platform. You and every student receive their own login.	Live certifications are delivered in the webinar software approved by your school board. We are familiar with Google Meet, Microsoft Teams, Zoom, Webex, and other platforms. <i>Live Certifications can also be delivered in -person when safe to do so and conscious of social distancing measures.</i>
When are certifications availability?	You select the start date, end date and gain access to the certification content for as long as needed throughout the 2020-2021 school year. You plan how to deliver the certification modules based on your teaching demands and schedule. A Teacher Planning Guide is available to use to provide the approximate times each activity will take for students to complete.	You choose the start and end dates. Each student works at their own pace to complete modules and assignments.	You choose the start and end dates for your students to work through the certification. Your students will receive a customized schedule based on the live virtual workshop dates.	You select the date and time that works best for you, your students and schedule. Please allow for 2-4 weeks preparation and development when booking.
How long will it take a student to complete a certification?	We estimate that completion time is between 90-120 minutes for the majority of our online certifications. The estimated completion time for Innovation, Creativity and Entrepreneurship and Safety Awareness & Injury Identification is between 4-6 hours. Completion time depends greatly on the amount of effort students put into their assignments and does not include their time in virtual help.
